## Code Breaker: Nonresidential, Hotel/Motel and Multifamily Envelope 2022 Energy Code

The 2022 Energy Code (Title 24, Part 6) requirements for Nonresidential, Hotel/Motel and Multifamily envelope features, including roofing products and insulation, wall, raised floor, fenestration, and solid door for all scopes of work (new construction, additions and alterations), have been revised. We will review these requirements in addition to how the Energy Code has been reorganized to support Multifamily buildings.

### OBJECTIVES

- Determine which section(s) of the 2022 Energy Code apply to Nonresidential, Hotel/Motel and Multifamily buildings.
- Discuss the envelope (roof, walls, floors, fenestration, solid doors) requirements under the 2022 Energy Code for both Nonresidential, Hotel/Motel and Multifamily buildings.
- Recognize how the Energy Code requirements for newly built spaces differs from the requirements for altered spaces.
- Discover where and how to document compliance with the Certificate of Compliance (NRCC), Certificate of Installation (NRCI) and Certificate of Acceptance (NRCA).
